

Stablecoins with Banking Rails

Fast, Secure & Compliant Digital Payments

StaBillion empowers businesses and individuals with instant stablecoin payments, offering seamless, secure, and cost-effective transactions. Our **1:1 fiat-backed stablecoins** ensure stability, transparency, and full redemption, making digital payments as reliable as traditional banking.

GRANTS & AWARDS

CLIENTS

PARTNERS & ACCELERATORS

Key Services

- On-Ramp & Off-Ramp – Convert fiat to stablecoins and back effortlessly.
- Real-Time Payments – Enable instant, low-cost transfers.
- Stablecoin Settlement – Streamline B2B and B2C payments.
- Banking Integration – Seamless connection to financial networks.
- IBANs & VABNs – Individual and virtual account numbers for easy transactions.

MiCA Compliance & EMI Licensing

Stabillion operates under the MiCA regulatory framework, ensuring compliance with European financial standards. Our Electronic Money Institution (EMI) license allows us to issue electronic money in a secure and regulated environment and empowers to issue EMT tokens in accordance to EU regulations.

Why Choose StaBillon?

- **EU Licensed** - Operate with confidence under EU law.
- **5+ Years Experience** - Proven stability and expertise.
- **Full Compliance Built-In** - AML, KYC, GDPR, and PSD2 ready.
- **Mint Any Currency** - Launch stablecoins for any fiat.
- **Secure & Transparent** - Protect users with trusted technology.
- **Fast, Plug & Play Setup** - Quick launch with minimal effort.
- **Strong EU Partner Network** - Access a trusted network of financial partners.
- **Low Cost & Efficient** - Reduce transaction fees with instant settlement
